

1. Please provide any comments concerning the Altmeyer Park development

- kid and animal friendly
- allow scouts to help with plans/building/planting
- allow volunteers to help
- I think the proposed ideas are wonderful! My only concern is traffic and pulling out onto 910. How will this be handled?
- Walking or biking trail
- Lake or kayaking or canoes and fishing
- A nice place to relax and feel at peace
- I think you have a lot of great ideas planned. I can't wait to see it finished.
- No concerns
- To make the park functional for the families nearby, the park will need more activities for children. With limited space for baseball fields or soccer fields, maybe something like horse shoes, volleyball court or even a hockey ring that takes up less space.
- I like that it keeps theme of park.
- Rent out for parties
- I think it would be great for the community. We love visiting different parks and enjoying the outdoors. Anything to get people outside is always a good thing these days.
- Concerned about safety of the barn. Would need to be retrofitted to ensure it is not a public nuisance. Could be costly. Might want to consider eliminating the barn.
- Save the groundhogs. They are so cut to observe
- Ensure sufficient parking
- Hiking/Walking trails
- I think it is a great idea! Although I would have concerns about increased traffic around that area.
- Traffic management
- Fenced for children's safety
- Sounds good. Will there actually be a playground for kids.
- Looks like there are many great plans in store!
- Key concepts are captured on the front of this page. Sounds like a wonderful plan and we are in full support!
- No concerns, great use of site
- Community Center
- This would be a great addition to the township. The location of the park would be ideal and would have good exposure. Knob Hill park is great but location is a bit far for some residents.
- It looks very well planned out! Maybe the field area can be used for flea market type of event.
- We are excited for the new park!
- Sound interesting we shall come
- Swings, slides, sprinklers
- pool

- Looks nice!
- Anywhere for soccer??
- Glad it's being developed
- No concerns, I think that it is a great idea with year round access
- We love the open area/green space and ground hogs.
- Glad to see you're keeping a lot of open space
- Not really sure where
- Outdoor playground
- soccer field
- lacrosse field
- Not really sure where it is. We are new
- Amount of space seems small
- pavillions
- sidewalks to corss 910
- herb garden
- Would love a memorial garden
- sidewalks and traffic lights to cross Cole Road
- Great use
- Shaded area important
- Winter activities
- Dog park
- Re-establish native trees/plants
- Concerned with traffic safety at entrance
- Great Idea!
- I know there has been quite a lot of work designing this park, but personally I think there is too much planned for such a little space!
- In my opinion, the bar is costing too much in restoration. With the amount of money needed to restore the barn, it could be used to create a beautiful structure. Meeting the need of Marshall Township residents
- I am concerned with the uprooting of the groundhogs (counted 10 at one sitting) and where they will be going. It's already a problem near Altmyers. I would like to see a solution like Pitt is doing with their Trees Field site, which is to hire a contractor to control the groundhog population before proceeding any further.
- I would hope a turning lane will be installed at the Cole Road/910 light
- I am most excited about the renovation of the barn.
